

**PRESENTATION HALL****24 AUGUST 2023, THURSDAY****ORAL PRESENTATION SESSION-IV / 11.00-12.30****Moderators: Katsumi Takizawa, Robert Shumkovski, Oğuz Baran**

<b>11:00-11:05</b>	<b>OP-IV/110</b>	<b>Sebastião Gusmão</b>	Technical and Cosmetic Improvement of Craniotomy
<b>11:05-11:10</b>	<b>OP- IV/20</b>	<b>Saygı Uygur</b>	Cadaveric Study for Selecting Optimal Surgical Approach to Thalamus
<b>11:10-11:15</b>	<b>OP- IV/21</b>	<b>Manuel de Jesus Encarnacion Ramirez</b>	The Role of microsurgery in the Management of Severe Traumatic Brain Injury: A Triple-Center Study
<b>11:15-11:20</b>	<b>OP- IV/2</b>	<b>Robert Shumkovski</b>	The anatomy of transnasal transsphenoidal approach to pituitary adenomas and sellar anatomy through the endoscope
<b>11:20-11:25</b>	<b>OP- IV/24</b>	<b>Özde Şenol Akbulut</b>	Is Clinical Improvement of Vision Reflected in Volume of the Visual Path Components: A Retrospective Study of Pituitary Adenomas
<b>11:25-11:30</b>	<b>OP- IV/3</b>	<b>Sabino Luzzi</b>	Department of Clinical-Surgical, Diagnostic and Pediatric Sciences, University of Pavia, Pavia, Italy
<b>11:30-11:35</b>	<b>OP- IV/25</b>	<b>Keaton Piper</b>	Transorbital surgical corridor: an anatomical analysis of ocular globe translation and the associated exposure
<b>11:35-11:40</b>	<b>OP- IV/5</b>	<b>Gokberk Erol</b>	Graftless Primary Dural Closure Following Retrosigmoid Approach: Doing More with Less
<b>11:40-11:45</b>	<b>OP- IV/27</b>	<b>Zafer Cinibulak</b>	Neuronavigated Standard Suboccipital Retrosigmoidal Approach: Morphometric Comparison of the Microscopical and Endoscopical Surgical Area of Exposure of the Brain Stem
<b>11:45-11:50</b>	<b>OP- IV/6</b>	<b>Mustafa SAHIN</b>	The Role of Indocyanine Green Angiography in Preventing Vascular Malpositions During Microvascular Decompression Surgery
<b>11:50-11:55</b>	<b>OP- IV/17</b>	<b>Noor ul Huda Maria</b>	Risk Stratification for Post-Traumatic Epilepsy (PTE) with Possible Integration of AI
<b>11:55-12:00</b>	<b>OP- IV/33</b>	<b>Dilan Özaydın</b>	Can Machine Learning Algorithms Be an Alternative to Invasive Procedures In The Differential Diagnosis Of ACTH-Dependent Cushing's Syndrome?
<b>12:00-12:05</b>	<b>OP- IV/34</b>	<b>Daniel Ballesteros-Herrera</b>	Photo-Stacking Technique for Neuroanatomical Education
<b>12:05-12:10</b>	<b>OP- IV/37</b>	<b>Sergey Kondrahov</b>	Percutaneous Radiofrequency Neurotomy in Patients with Trigeminal Neuralgia Associated with Multiple Sclerosis
<b>12:10-12:15</b>	<b>OP- IV/35</b>	<b>Nursultan Abilkhanov</b>	Surgical Approach of Management for Sciatic Nerve Injuries: A 10-Year Experience
<b>12:15-12:20</b>	<b>OP- IV/14</b>	<b>Feride Bulgur</b>	Anterior Interhemispheric Transcallosal Approach For a Pilocytic Astrocytoma in the Globus Pallidus
